Cobranded Environmental Index Series Introduced by S&P Dow Jones Indices and Tokyo Stock Exchange

S&P Dow Jones Indices (“S&P DJI”) and Tokyo Stock Exchange (“TSE”) today announced the launch of the S&P/TOPIX 150 Environmental Index Series featuring four benchmarks designed to meet the growing demand of environmentally and socially conscious Japanese investors. All the indices were constructed based upon the constituents of the S&P/TOPIX 150 Index, one of the leading investable equity benchmarks in Japan. These four indices are:

- **S&P/TOPIX 150 Fossil Fuel Free Index:** Designed to measure the performance of companies in the S&P/TOPIX 150 that do not own fossil fuel reserves. The research for ownership of fossil fuel reserves is conducted by RobecoSAM across a number of priority sectors including oil and gas, coal and consumable fuels, as well as mining, materials and utilities;
- **S&P/TOPIX 150 Carbon Efficient Select Index:** Designed to measure the performance of the companies in the S&P/TOPIX 150 with relatively low carbon emissions;
- **S&P/TOPIX 150 Fossil Fuel Free Carbon Efficient Index:** Designed to measure the performance of companies within the S&P/TOPIX 150 Fossil Fuel Free Index while applying the same weighting process based on the Carbon Footprint metric as the S&P/TOPIX 150 Carbon Efficient Index;
- **S&P/TOPIX 150 Fossil Fuel Free Carbon Efficient Select Index:** Designed to measure the performance of the companies in the S&P/TOPIX 150 Fossil Fuel Free Index with relatively low carbon emissions.
