PRESS RELEASE

S&P Dow Jones Indices Completes Its Annual Review of Adherence with IOSCO Principles for Financial Benchmarks

NEW YORK, JULY 30, 2019: S&P Dow Jones Indices (“S&P DJI”), the world’s leading index provider, announced today that it has completed its sixth annual review of its adherence to the International Organization of Securities Commissions (IOSCO) Principles for Financial Benchmarks. The IOSCO Principles for Financial Benchmarks were published in July of 2013.

The 2019 review was conducted by an independent global accounting and professional services firm and, as with all previous reviews, covers key aspects of S&P DJI’s index governance regime, control framework and operations including the separation of index governance and commercial activities and the management and oversight of its policies and procedures.

“We are proud to have completed this important annual review of our adherence to the IOSCO principles,” said **Alex Maturri, CEO of S&P Dow Jones Indices**. “As an independent index provider, our adherence to the IOSCO Principles for Financial Benchmarks reflects our longstanding commitment to hold ourselves to the highest standards of integrity, adopt best practices, avoid conflicts of interest, and govern our indices in a transparent way.”

S&P DJI’s Management Statement of Adherence of the IOSCO Principles as well as the results of the independent review from an independent global accounting and professional services firm can be accessed via the company’s [Governance](#) website.

ABOUT S&P DOW JONES INDICES

S&P Dow Jones Indices is the largest global resource for essential index-based concepts, data and research, and home to iconic financial market indicators, such as the S&P 500® and the Dow Jones Industrial Average®. More assets are invested in products based on our indices than products based on indices from any other provider in the world. Since Charles Dow invented the first index in 1884, S&P DJI has been innovating and developing indices across the spectrum of asset classes helping to define the way investors measure and trade the markets.
