

## Modification to the Methodologies of the S&P Quality South Africa Index and S&P Enhanced Value South Africa Composite Index

**NEW YORK, JUNE 5, 2019:** S&P Dow Jones Indices (“S&P DJI”) announces changes to the methodologies of the S&P Quality South Africa Index and S&P Enhanced Value South Africa Composite Index.

In order to enhance index liquidity, S&P DJI will modify the liquidity thresholds used to determine security eligibility as detailed in the table below.

Methodology		
Change	Previous	Updated
Additional Liquidity Criteria	Three-Month Average Daily Value Traded of ZAR 5 million.	Three-Month Median Daily Value Traded of ZAR 5 million (ZAR 4 million for current constituents).

These changes will become effective prior to the market open on **Monday, June 17, 2019**.

Please note that the S&P Quality Indices Methodology and S&P Enhanced Value Indices Methodology on S&P DJI’s website are being updated to reflect these changes.

### ABOUT S&P DOW JONES INDICES

S&P Dow Jones Indices is the largest global resource for essential index-based concepts, data and research, and home to iconic financial market indicators, such as the S&P 500® and the Dow Jones Industrial Average®. More assets are invested in products based on our indices than products based on indices from any other provider in the world. Since Charles Dow invented the first index in 1884, S&P DJI has been innovating and developing indices across the spectrum of asset classes helping to define the way investors measure and trade the markets.

S&P Dow Jones Indices is a division of S&P Global (NYSE: SPGI), which provides essential intelligence for individuals, companies and governments to make decisions with confidence. For more information, visit [www.spdji.com](http://www.spdji.com).
