

Modification to the Methodology of the S&P/CLX Indices

MEXICO CITY, AUGUST 9, 2019: S&P Dow Jones Indices (“S&P DJI”) announces a change to the methodology of the S&P/CLX Indices that rebalance in September.

Pro-forma files are normally released after the market close on the second Friday, one week prior to the rebalancing effective date. Due to Chilean market holidays in the month of September, S&P DJI will release pro-forma files for the S&P/CLX Indices two weeks prior to the rebalancing effective date. The table below summarizes the change.

Change	Methodology	
	Previous	Updated
Price Reference Date and Pro-forma Schedule	Constituents’ index shares are calculated using closing prices from seven business days prior to the rebalancing effective date.	<p>Except for the September rebalancing, constituents’ index shares are calculated using closing prices from seven business days prior to the rebalancing effective date.</p> <p>For the September rebalancing, constituents’ index shares are calculated using closing prices from nine business days prior to the rebalancing effective date.</p>

Preliminary share and float data for the September rebalancing will be released on the first Friday of the month until the market close on the second Friday of the month, where the finalized changes will be published.

This change will become effective prior to the market open on **Friday, September 6, 2019**, in conjunction with the pro-forma file delivery for the September 2019 index rebalancing.

Please note that the S&P/CLX Indices Methodology on S&P DJI’s website is being updated to reflect this change.
