Introduction

Index Objective

Each index in the S&P Global 1200 Fossil Fuel Free Index Series measures the performance of companies in its respective underlying index that do not own fossil fuel reserves. Each index is weighted by float-adjusted market capitalization.

Index Family

The S&P Global 1200 Fossil Fuel Free Index Series consists of the following:

1. S&P Global 1200 Fossil Fuel Free Index
2. S&P Asia 50 Fossil Fuel Free Index
3. S&P/ASX All Australian 50 Fossil Fuel Free Index
4. S&P Europe 350 Fossil Fuel Free Index
5. S&P 500 Fossil Fuel Free Index
6. S&P Latin America 40 Fossil Fuel Free Index
7. S&P/TSX 60 Fossil Fuel Free Index
8. S&P/TOPIX 150 Fossil Fuel Free Index

For information on the S&P/TOPIX 150 Fossil Fuel Free Index, please refer to the methodology document available at www.spdji.com.

Collaboration

This index series is generated and published under agreements between S&P Dow Jones Indices and RobecoSAM.

Supporting Documents

This methodology is meant to be read in conjunction with supporting documents providing greater detail with respect to the policies, procedures and calculations described herein. References throughout the methodology direct the reader to the relevant supporting document for further information on a specific topic. The list of the main supplemental documents for this methodology and the hyperlinks to those documents is as follows:

Supporting Document	URL
S&P Dow Jones Indices' Equity Indices Policies & Practices Methodology	Equity Indices Policies & Practices
S&P Dow Jones Indices' Index Mathematics Methodology	Index Mathematics Methodology
S&P Dow Jones Indices' Float Adjustment Methodology	Float Adjustment Methodology
S&P Dow Jones Indices' Global Industry Classification Standard (GICS) Methodology	GICS Methodology

This methodology was created by S&P Dow Jones Indices to achieve the aforementioned objective of measuring the underlying interest of each index governed by this methodology document. Any changes to or deviations from this methodology are made in the sole judgment and discretion of S&P Dow Jones Indices so that the index continues to achieve its objective.

Eligibility Criteria and Index Construction

Index Universe

At each quarterly rebalancing, each index is constructed from the constituents of an underlying index as detailed below.

Index	Universe
S&P Global 1200 Fossil Fuel Free Index	S&P Global 1200
S&P Asia 50 Fossil Fuel Free Index	S&P Asia 50
S&P/ASX All Australian 50 Fossil Fuel Free Index	S&P/ASX All Australian 50
S&P 500 Fossil Fuel Free Index	S&P 500
S&P Europe 350 Fossil Fuel Free Index	S&P Europe 350
S&P Latin America 40 Fossil Fuel Free Index	S&P Latin America 40
S&P/TSX 60 Fossil Fuel Free Index	S&P/TSX 60

For more information on an underlying index, please refer to its respective methodology document available at www.spdji.com.

Constituent Selection

The S&P Global 1200 Index Series uses components of the S&P Global 1200 as underlying indices. Securities in an underlying index are screened so that the Fossil Fuel Free Indices include only those companies that do not hold fossil fuel reserves. The exclusion rules are based on any ownership of fossil fuels, including for third party and in-house power generation. With respect to coal, the exclusion relates to thermal coal and does not cover companies which are exclusively engaged in the extraction of metallurgical or coking coal. The research for ownership of fossil fuel reserves is conducted by RobecoSAM across a number of priority sectors including oil & gas, coal & consumable fuels, as well as mining, materials and utilities. Research is based on publicly available information, such as annual reports and other company publications. The entire universe is reviewed annually. New additions to the underlying indices are reviewed for inclusion into the Fossil Fuel Free Indices each quarter, provided they have been added to the underlying indices by the Fossil Fuel Free Indices' rebalancing reference dates.

Constituent Weighting

Each index is weighted by float-adjusted market capitalization.

Index Calculations

These indices are calculated by means of the divisor methodology used in all S&P Dow Jones Indices' equity indices.

For more information on the index calculation methodology, please refer to the Market Capitalization Weighted Indices section of S&P Dow Jones Indices' Index Mathematics Methodology.

Multiple Classes of Stock

All publicly listed multiple share class lines are eligible for index inclusion, subject to meeting the eligibility criteria. For more information regarding the treatment of multiple share classes, please refer to Approach A within the Multiple Share Classes section of the S&P Dow Jones Indices' Equity Indices Policies & Practices Methodology.

Shares Outstanding

The share count used as inputs in the weighting model, are common shares outstanding. This count is float-adjusted to reflect only shares available to the general market. Specific share counts and float factors are calculated by S&P Dow Jones Indices.

For float adjustment methodology, please refer to S&P Dow Jones Indices' Float Adjustment Methodology.

Index Maintenance

Rebalancing

The indices are rebalanced quarterly after the close of business on the third Friday of March, June, September, and December. The rebalancing reference dates are after the close of the third Friday of February, May, August, and November, respectively.

Changes to a constituent's shares and IWF are applied quarterly as part of the rebalancing process.

Additions and Deletions

Additions. Index additions are generally made only during the quarterly rebalancings. Spin-offs, however, may necessitate the addition of the spun-off company to the index. The spun-off company is added to all the indices of which the parent company is a constituent at a zero price at the market close of the day before the ex-date (with no divisor adjustment). If the spun-off company is to remain in the underlying universe index, it subsequently remains in the corresponding Fossil Fuel Free Index. If the spun-off company is removed from the underlying universe index after at least one day of regular way trading (with a divisor adjustment), the corresponding Fossil Fuel Free Index follows the same treatment.

For general information on spin-off treatments, please refer to S&P Dow Jones Indices' Equity Indices Policies & Practices document.

Deletions. Index constituents may be removed from the index following a takeover, merger, delisting, bankruptcy, indefinite suspension or if dropped from the respective underlying index. Index deletions are not replaced until the subsequent quarterly rebalancing.

In addition, if a company that is a constituent of both an underlying index and its respective Fossil Fuel Free Index acquires another constituent of the same underlying index which is currently excluded from the Fossil Fuel Free Index due to ownership of fossil fuel reserves, the acquirer will be dropped from the Fossil Fuel Free Index on the action effective date.

RobecoSAM Exclusion Data. Exclusion data from RobecoSAM is updated annually in April and is applied as part of the June quarterly rebalancing.

Corporate Actions

Each index follows the methodology and maintenance procedures of its respective underlying index with respect to the treatment of corporate actions. Index additions are generally made only during the quarterly rebalancings.

For more information on the corporate action treatment of the underlying indices, please refer to each underlying index's respective methodology document available at www.spdji.com.

For general information on corporate action treatments, please refer to S&P Dow Jones Indices' Equity Indices Policies & Practices Methodology.

Currency of Calculation and Additional Index Return Series

The indices are calculated in U.S. dollars. In addition, the S&P/ASX All Australian 50, Europe 350, and S&P/TSX 60 Fossil Fuel Free Indices are also available in Australian dollars, euros, and Canadian dollars, respectively.

WM/Reuters foreign exchange rates are taken daily at 04:00 PM London time and used in the calculation of the indices. These mid-market fixings are calculated by the WM Company based on Reuters' data and appear on Reuters pages WMRA.

In addition to the indices detailed in this methodology, additional return series versions of the indices may be available, including, but not limited to: currency, currency hedged, decrement, fair value, inverse, leveraged, and risk control versions. For a list of available indices, please refer to [S&P DJI's All Indices by Methodology Report](#).

For information on the index calculation, please refer to S&P Dow Jones Indices' Index Mathematics Methodology.

Base Dates and History Availability

Index history availability, base dates and base values are shown in the table below.

Index	Launch Date	First Value Date	Base Date	Base Value
S&P Global 1200 Fossil Fuel Free Index	08/28/2015	12/30/2011	12/30/2011	100
S&P Asia 50 Fossil Fuel Free Index	08/28/2015	12/30/2011	12/30/2011	100
S&P/ASX All Australian 50 Fossil Fuel Free Index	08/28/2015	12/30/2011	12/30/2011	100
S&P Europe 350 Fossil Fuel Free Index	08/28/2015	12/30/2011	12/30/2011	100
S&P 500 Fossil Fuel Free Index	08/28/2015	12/30/2011	12/30/2011	100
S&P Latin America 40 Fossil Fuel Free Index	08/28/2015	12/30/2011	12/30/2011	100
S&P/TSX 60 Fossil Fuel Free Index	10/05/2015	12/30/2011	12/30/2011	100

Investable Weight Factor (IWF)

All issues in the S&P Global 1200 Fossil Fuel Free Index Series are assigned a float factor, called an Investable Weight Factor (IWF). The IWF ranges between 0 and 1 and is an adjustment factor that accounts for the publicly available shares of a company.

Please refer to S&P Dow Jones Indices' Float Adjustment Methodology for further details.

Other Adjustments

In cases where there is no achievable market price for a stock being deleted, it can be removed at a zero or minimal price at the Index Committee's discretion, in recognition of the constraints faced by investors in trading bankrupt or suspended stocks.

Index Data

Calculation Return Types

S&P Dow Jones Indices calculates multiple return types which vary based on the treatment of regular cash dividends. The classification of regular cash dividends is determined by S&P Dow Jones Indices.

- Price Return (PR) versions are calculated without adjustments for regular cash dividends.
- Gross Total Return (TR) versions reinvest regular cash dividends at the close on the ex-date without consideration for withholding taxes.
- Net Total Return (NTR) versions, if available, reinvest regular cash dividends at the close on the ex-date after the deduction of applicable withholding taxes.

In the event there are no regular cash dividends on the ex-date, the daily performance of all three indices will be identical.

For a complete list of indices available, please refer to the daily index levels file (“.SDL”).

For more information on the classification of regular versus special cash dividends as well as the tax rates used in the calculation of net return, please refer to S&P Dow Jones Indices’ Equity Indices Policies & Practices Methodology.

For more information on the calculation of return types, please refer to S&P Dow Jones Indices’ Index Mathematics Methodology.

Index Governance

Index Committee

The indices are maintained by an Index Committee. The Index Committee meets regularly. All committee members are full-time professional members of S&P Dow Jones Indices' staff. At each meeting, the Index Committee reviews pending corporate actions that may affect index constituents, statistics comparing the composition of the indices to the market, companies that are being considered as candidates for addition to an index, and any significant market events. In addition, the Index Committee may revise index policy covering rules for selecting companies, treatment of dividends, share counts or other matters.

S&P Dow Jones Indices considers information about changes to its indices and related matters to be potentially market moving and material. Therefore, all Index Committee discussions are confidential.

S&P Dow Jones Indices' Index Committees reserve the right to make exceptions when applying the methodology if the need arises. In any scenario where the treatment differs from the general rules stated in this document or supplemental documents, clients will receive sufficient notice, whenever possible.

In addition to the daily governance of indices and maintenance of index methodologies, at least once within any 12-month period, the Index Committee reviews the methodology to ensure the indices continue to achieve the stated objectives, and that the data and methodology remain effective. In certain instances, S&P Dow Jones Indices may publish a consultation inviting comments from external parties.

For information on Quality Assurance and Internal Reviews of Methodology, please refer to S&P Dow Jones Indices' Equity Indices Policies & Practices Methodology.

For Index Committee information for the S&P/TOPIX 150 Fossil Fuel Free Index, please refer to its methodology document available at www.spdji.com.

Index Policy

Announcements

All index constituents are evaluated daily for data needed to calculate index levels and returns. All events affecting the daily index calculation are typically announced in advance via the Index Corporate Events report (.SDE), delivered daily to all clients. Any unusual treatment of a corporate action or short notice of an event may be communicated via email to clients.

For more information on S&P Dow Jones Indices' announcements, please refer to the [Announcement Policy](#).

Pro-forma Files

In addition to the corporate events file (.SDE), S&P Dow Jones Indices provides constituent pro-forma files each time the indices rebalance. The pro-forma file is typically provided daily in advance of the rebalancing date and contains all constituents and their corresponding weights and index shares effective for the upcoming rebalance. Since index shares are assigned based on prices prior to the rebalancing, the actual weight of each stock at the rebalancing differs from these weights due to market movements.

Please visit www.spdji.com for a complete schedule of rebalancing timelines and pro-forma delivery times.

Holiday Schedule

The indices are calculated daily, throughout the calendar year. The only days an index is not calculated are on days when all exchanges where an index's constituents are listed are officially closed.

A complete holiday schedule for the year is available at www.spdji.com.

Rebalancing

The Index Committee may change the date of a given rebalancing for reasons including market holidays occurring on or around the scheduled rebalancing date. Any such change will be announced with proper advance notice where possible.

Unexpected Exchange Closures

For information on Unexpected Exchange Closures, please refer to S&P Dow Jones Indices' Equity Indices Policies & Practices Methodology.

Recalculation Policy

For information on the recalculation policy, please refer to S&P Dow Jones Indices' Equity Indices Policies & Practices Methodology.

For information on [Calculations and Pricing Disruptions](#), [Expert Judgment and Data Hierarchy](#), please refer to S&P Dow Jones Indices' Equity Indices Policies & Practices Methodology.

For Index Policy information for the S&P/TOPIX 150 Fossil Fuel Free Index, please refer to its methodology document available at www.spdji.com.

Contact Information

For questions regarding an index, please contact: index_services@spglobal.com.

Index Dissemination

Index levels are available through S&P Dow Jones Indices' Web site at www.spdji.com, major quote vendors (see codes below), numerous investment-oriented Web sites, and various print and electronic media.

Tickers

The table below lists headline indices covered by this document. All versions of the below indices that may exist are also covered by this document. Please refer to [S&P DJI's All Indices by Methodology Report](#) for a complete list of indices covered by this document.

Index (Currency)	Return Type	Bloomberg

Index Data

Daily constituent and index level data are available via subscription.

For product information, please contact S&P Dow Jones Indices, www.spdji.com/contact-us.

For Index Dissemination information for the S&P/TOPIX 150 Fossil Fuel Free Index, please refer to its methodology document available at www.spdji.com.

Web site

For further information, please refer to S&P Dow Jones Indices' Web site at www.spdji.com.

Appendix

Methodology Changes

Methodology changes since January 1, 2015 are as follows:

Change	Effective Date (After Close)	Previous	Methodology	Updated
Deletions: Removal of MSA Overlay	12/20/2019	Any constituent flagged by RobecoSAM's MSA may be removed if the Index Committee determines that the company in question is no longer eligible for index inclusion.		--
Intra-rebalancing Drop Treatment	09/16/2016	Companies involved in environmental crisis situations are not dropped from the indices between rebalancings.	Any constituent raised as an environmental Media and Stakeholder Analysis (MSA) case by RobecoSAM will be brought to the governing Index Committee for possible immediate removal. In the event of removal, the constituent in question would not be eligible for re-entry into the indices for one year beginning with the subsequent rebalancing.	
Treatment of Spin-offs	10/01/2015	If the spun-off stock is to be added and if an achievable market price is available, it is used; if not, a theoretical price based on the spin-off terms is used. The price is adjusted to the Price of the Parent Company minus (Price of the Spun-off company/Share Exchange Ratio). Index shares change so that the company's weight remains the same as its weight before the spin-off.	The spun-off company is added to all the indices of which the parent is a constituent at a zero price at the market close of the day before the ex-date (with no divisor adjustment). If the spun-off company is to remain in the parent universe index, it will subsequently remain in the corresponding Fossil Fuel Free Index, provided the parent company is not currently excluded due to ownership of fossil fuel reserves. If the spun-off company is removed from the parent universe index after at least one day of regular way trading (with a divisor adjustment), or if the parent company is currently excluded due to ownership of fossil fuel reserves, the corresponding Fossil Fuel Free Index will follow the same treatment.

Redistribution or reproduction in whole or in part are prohibited without written permission of S&P Dow Jones Indices LLC. This document does not constitute an offer of services in jurisdictions where S&P Dow Jones Indices LLC, S&P, Dow Jones or their respective affiliates (collectively "S&P Dow Jones Indices") do not have the necessary licenses. Except for certain custom index calculation services, all information provided by S&P Dow Jones Indices is impersonal and not tailored to the needs of any person, entity or group of persons. S&P Dow Jones Indices receives compensation in connection with licensing its indices to third parties and providing custom calculation services. Past performance of an index is not an indication or guarantee of future results.

It is not possible to invest directly in an index. Exposure to an asset class represented by an index may be available through investable instruments based on that index. S&P Dow Jones Indices does not sponsor, endorse, sell, promote or manage any investment fund or other investment vehicle that is offered by third parties and that seeks to provide an investment return based on the performance of any index. S&P Dow Jones Indices makes no assurance that investment products based on the index will accurately track index performance or provide positive investment returns. S&P Dow Jones Indices LLC is not an investment advisor, and S&P Dow Jones Indices makes no representation regarding the advisability of investing in any such investment fund or other investment vehicle. A decision to invest in any such investment fund or other investment vehicle should not be made in reliance on any of the statements set forth in this document. Prospective investors are advised to make an investment in any such fund or other vehicle only after carefully considering the risks associated with investing in such funds, as detailed in an offering memorandum or similar document that is prepared by or on behalf of the issuer of the investment fund or other investment product or vehicle. S&P Dow Jones Indices LLC is not a tax advisor. A tax advisor should be consulted to evaluate the impact of any tax-exempt securities on portfolios and the tax consequences of making any particular investment decision. Inclusion of a security within an index is not a recommendation by S&P Dow Jones Indices to buy, sell, or hold such security, nor is it considered to be investment advice.
